www.ccs-inc.com

Manufacturing Engineer

Description:

Assist in various manufacturing and process improvement projects.

Sample Projects:

- Inventory Management - identify, count and organize current inventory for enclosure product line.
- Create Kanban systems for enclosure product line assembly, weld, sand and powder-coat stations.
- Create user manuals for enclosure products with instructions on how to install/use the various options as standard product designs are released.
- Create buildsheets and inspection checklists for new standard enclosures as designs are released and manufactured.
- ROI study for a media blasting booth.
- Lighting study/recommendations for paint booth.
- Assist in creation of documentation and setup of international industrial computer manufacturing lines.

Skills/Education/Experience:

- Industrial Engineering, Mechanical Engineering or other suitable education.
- Basic familiarity of manufacturing environment.
- Excellent technical writing skills.
- Ability to work effectively with minimal supervision.
- Strong teaming skills.
- Bills of Material and ERP experience a plus.
- Drafting and/or design experience a plus.

Hours:

20 - 40 hours/week. This is an immediate opening for a part-time position. To apply, please e-mail a resume to: hr@ccs-inc.com

CCS, Inc., based in Christiansburg, VA, is an ISO 9001:2000 certified business that works with customers to design and implement global technology solutions for the food and beverage, marine, manufacturing, communications, energy and utilities, and life sciences industries. CCS consists of three business units: CCS-Industrial and subsidiaries Envirosealed and Qualtrax, Inc. CCS-Industrial provides industrial computer hardware, integration, design and engineering services for OEMs and industrial clients. Envirosealed produces computer and printer enclosures for use in harsh environments. Qualtrax provides web-based compliance management software valuable for companies working in regulated industries that must comply with ISO, QS, FDA, HACCP, Sarbanes Oxley, or other regulatory guidelines. Qualtrax greatly simplifies document/content management, workflow tracking and business/manufacturing process control.

CCS Inc. is an Equal Opportunity Employer.
